# Our Story

With a big Thank You to the support  
from all our customers

We're Natalie and Paul Sun, and our passion for art and design led us to set up Gingko Design in 2011, the same year we were married.

We believe that good design should be simple but elegant, sustainable but unique, functional but also long lasting - This philosophy has inspired us to create our innovative and stylish designs that have won a number of international awards. We have now become a leader in the premium & creative design-led home and gift sector in the UK.

Using the latest technology and a fresh, modern approach, we bring elegance and practicality together in a seamless and sustainable way, enabling us to create lighting, accessories and timepieces that will bring something truly special to your home.

So why Gingko? We get asked this a lot! The gingko biloba tree is one of the oldest in the world, beautiful when the leaves turn golden in autumn, and used for making herbal recipes and teas for hundreds of years. When we set up our company, we wanted to design and craft products that echoed these qualities; longevity, beauty and a practical use.

We're based about 5 minute drive outside of Warwick town centre in Warwickshire, Shakespeare's county and we feel proud of what we have created and we know that you will feel the same pride in selling and owning our beautiful products .

## Flip Click Clock

The UK Gift of the Year Award-winning Flip Click Clock changes your normal way of using an alarm clock. When nicely engraved alarm icon shows on top, it means your alarm is turned on, otherwise, it's turned off.

Made of natural wood material, the Flip Click Clock is super-easy to use. To set the time and alarm, simply touch the fine laser engraved buttons. When the alarm goes off, gently touch any of these engraved buttons on the top to snooze and to turn off the alarm, you can easily flip it over and the numbers will magically correct themselves to a normal display as well, keeping the same time and moving as accurate as before.

Timekeeping can be smart, clever, ultra-stylish, functional and simple with our cube click alarm clock. The original Gingko Cube Click Clock can tell you the time, date and temperature alternately in LED numbers on a wood grained or other finished cube block at the click of your fingers and automatically switches off when the room is quiet, lighting up again when the alarms goes off or as a response to clicked fingers or clapped hands.

The numbers seem to float on the lovely wooden block, but that's just half the magic of the cuboid with a conscience.

Small, but smart; simple, but clever.
